HINTS & HELPS:

- ♦ **Minimum saw size** is 3.75 cu. In. Smaller sizes are listed in the IIBM Handbook, but only for informational purposes.
- ♦ If **Operator also** wishes to have **his vehicle signed up for fire work**, it is best to sign the vehicle up on a separate EERA - to prevent confusion when translating/understanding the Special Provision in Block 14. This will make life easier for you and other fire personnel when completing time sheets and shift tickets. The vehicle **cannot** be on hire on the second EERA if it is hired on the chainsaw EERA.
- ♦ See page 64 of 90 , for who pays what **supplies**. (Explains clause 14. d.)
- ♦ **Swampers** must be Class A qualified fallers (or equivalent)
- ♦ **Two sawyers** may also be ordered, with two saws, Class B or Class C qualified, or equivalent. Must be specified on resource order. (See Block 14. and page 67 of 90)
- ♦ **Backup chainsaw:** This is listed on EERA at no cost to the government. Backup saw listed so that it can have a pre-inspection and that contractor does not use an unsafe or undersized backup saw.
